Kitchen S-III Performance Data Sheet

Note: All tests completed in accordance with NSF/ANSI standards 42 & 53 for reduction of the substances listed below. The concentration of the individual substances in water entering the system was reduced to a concentration less than or equal to the permissible limit for water leaving the system, as specified in the NSF 42 & 53 standard.

① Percent reduction reflects the allowable claims for Volatile Organic Chemicals/Compounds as per NSF/ANSI 53 Standard, Section 7.2.4.1.

② The carbon block in the Wellness Kitchen S-III is rated for 1 micron nominal filtration. Performance claim for Cysts based on NSF/ANSI 53 challenge protocol 7.3.2.2.4.3, which requires reduction of particles in the range of 3 +/- .15 micron. Performance claim for Asbestos based on NSF/ANSI 53 challenge protocol 7.3.1.4.3, which requires reduction of particles greater than 10 micron in length.

Kitchen S-III Performance Data Sheet

NOTES:

1. Chloroform was used as a surrogate for claims of reduction of VOCs. The Wellness Kitchen S-III tested at >99.8% actual reduction of Chloroform. Percent reduction shown herein reflects the allowable claims for VOCs as per tables in the Standard.
2. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
3. Filter life will vary in proportion to the amount of water used and the level of impurities in the water being processed. For optimum performance, it is essential that the filter be replaced on a regularly scheduled basis as follows: (a) annually; (b) when the unit's rated capacity has been reached; (c) the flow rate diminishes; (d) the filter becomes saturated with bad tastes and odors.
4. The Wellness Kitchen S-III includes a capacity monitor. The LED automatically flashes and emits a beeping sound when it is time to replace your filter.
5. The Wellness Kitchen S-III is warranted as follows: All parts, workmanship and materials - 1 year. All exterior hoses and attachments are also warranted for one year. Please see the Owner's Manual for complete product guarantee and warranty information.
6. Please see the Owner's Manual for installation instructions and operating procedures.
7. In compliance with New York law, it is recommended that before purchasing a water treatment system, NY residents have their water supply tested to determine their actual water treatment needs. Please compare the capabilities of the Wellness Kitchen S-III with your actual water treatment needs.
8. Check for compliance with state and local laws and regulations.
9. While testing was performed under standard laboratory conditions, actual performance may vary.
10. The list of substances which the treatment device reduces does not necessarily mean that these substances are present in your tap water.

Wellness Kitchen S-III Product Technical Specifications	
Filtration & Enhancement media	Carbon block (coconut shell & proprietary mix), SPG Sand, Quartz, Magnetite, Bakuhan®, Tenko-Seki®, Taicho®, & High Gauss Magnets
Filtering flow rate	0.35 - 1.00 GPM (at 40 psi)
Maximum pressure (psi)	100 psi
Rated life	1,000 gallons/12 months
Operating temperatures	40°F. min - 100°F. max
Body dimensions	7.5" Wide x 5.5" Deep x 13.25" High Hose Length: 54"
Body weight (dry)	9 Pounds
Product Warranty	One year for workmanship & material defects
