### Advanced Water Filtration and Enhancement Technology

- Endorsed and used exclusively by the world's No. 1 Medical Spa
- Reduces chlorine, heavy metals, VOCs and other contaminants
- Enhances water's already vital role in your health

**30** years ago Haru Naito left Japan to complete his university studies in the United States. After his four years of study, and having won an NCAA national swimming championship, he returned to Japan to coach their national swimming team. Haru became interested in the emerging science of sports medicine. He became actively involved in health and performance research programs and was an early proponent of "muscle memory" training.

Haru's other fascination was the health and vitality of certain peoples, such as the Hunza of Pakistan, in geographically diverse parts of the world. He wondered how these groups enjoyed healthier and longer lives than people living in other regions. After extensive work, Haru determined that the common element was a proximity to naturally occurring mountain water sources that were of delicate and exquisite composition.

Wanting to provide similar benefits to his athletes in Japan, Haru sought to devise a water purification system which embodied all of the key components found in the naturally occurring mountain spring waters. Over the years Haru's system evolved. He carefully blended the natural processes with scientific research in order to create the ultimate water purifier. The result was The Wellness Filter®.

Reports of health benefits from using The Wellness Filter began to circulate throughout Japan. The Japanese Ministry of Health took interest and conducted rigorous tests. The Wellness Filter was installed in over 100 hospitals and in many physician's offices.

healthier water naturally

## The Wellness Kitchen S-III™

### Water the Way Nature Intended It

- Endorsed and used exclusively by the world's #1 medical spa
- Adds trace alkaline minerals which stabilize water pH
- Increases solubility & transmissibility, better hydration
- Reduces chlorine, chloramines & other contaminants

The Wellness Kitchen S-III filtration and enhancement system delivers the world's purest and most natural tasting water. It effectively reduces harmful contaminants, and at the same time enhances the water with delicate ions and minerals. After letting your body absorb the effects of its water, you will know why Hippocrates Health Institute, the world's top-rated medical spa, endorses and uses exclusively the Wellness Kitchen S-III to supply drinking water to its health-challenged clientele.

**Kitchen S-III System** — The Wellness Kitchen S-III features stainless steel housing and a 3-stage, state-of-the-art cartridge system which contains two purification stages and one permanent enhancement stage. The purifications stages are made of patented carbon block filtration, which are designed to reduce chlorine, chloramines, chlorinated hydrocarbons, trihalomethanes, pesticides, and foreign tastes and odors to NSF standards for safe, refreshing and healthy water (Performance Data Sheet available upon request). Positioned in-between the two purifications stages is a permanent, patented, enhancement cartridge that changes the water's properties by increasing hydration rate and instilling exotic Japanese minerals and an antioxidant effect for optimum benefit to your body.

The purification cartridges offer you better-than-bottled quality water and an LED display makes it easy to know when it is time to replace the cartridges. The Wellness Kitchen S-III also uses a unique, quick-fit connector which simplifies installation to an easy 3-minute operation — no plumbing required.

**Under-the-Countertop Conversion Kit** — For those that want the Wellness Kitchen S-III out of sight and/or want to supply Wellness water to their refrigerator, the Wellness Kitchen S-III converts easily to an under-the-countertop installation by using its accessory conversion kit. The conversion kit contains everything you need, including a designer chrome-plated, brass, ceramic faucet and all the necessary plumbing hardware and accessories. A professional plumber is required for this installation.

Find out for yourself why hundreds of thousands of users, including physicians, athletes and health-conscious individuals, make the Wellness Filter their choice for a lifetime. The difference in your water is noticed immediately. The Wellness Filter is also available in whole house, shower, and carafe versions.
